Testimony in Support of HB06552

Please accept my testimony in strong support of HB6652. This is not a new issue and one that I have studied thoroughly by reading 'camera bills' from several other states. In answer to questions regarding privacy, roommates and concerns of staff we know that these concerns have been studied and addressed. Be assured that all concerns that are being raised by Connecticut lawmakers, LTCF owners, roommates, or staff have already been studied and addressed by 14 other states. Connecticut does not need to reinvent the wheel with this legislation.

Please honor the right of LTCF residents to live in their 'homes' with all of the basic supports that every Connecticut resident has in their home.

Respectfully submitted,
Elizabeth Stern
Stonington, Connecticut
